TESTING, INSPECTION & CERTIFICATION

How much are admin and software upkeep costing your certification business?

Give your team more capacity for clients and growth.

Connect your audit and certification work in one platform maintained by Intact.

THE FIRST BUILD IS ONLY THE START

Faster to build.

Still yours to run.

A new AI tool still needs someone to...

AFTER LAUNCH — YOUR TEAM / YOUR BUDGET

Integrate	Connect it to the systems you use.
Secure	Test it. Control access. Govern its use.
Maintain	Keep patches and requirements current.
Improve	Fund the next feature. And the next.

The coding gets faster. The responsibility stays.

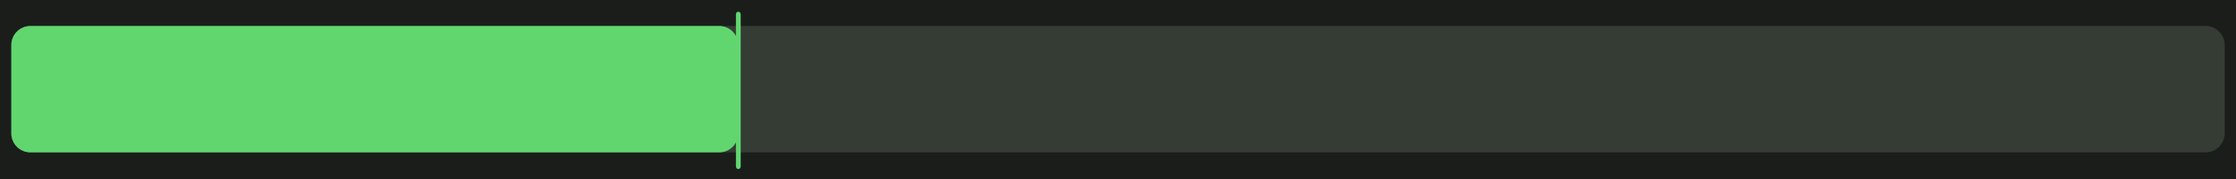

THE COST IS ALSO YOUR PEOPLE

Keeping it running takes time.

13.5h

per developer, per week spent addressing technical debt.

13.5h of a 41.1h average workweek

Time already committed before the next new idea.

Stripe / Harris Poll, The Developer Coefficient (2018), pp. 3-4.
Industry context referenced in the Intact whitepaper, p. 5.

THE INTACT ANSWER

Stay current. Share the investment.

Intact shares core platform upkeep and ongoing AI investment across its customers.

Core maintenance

Security

AI investment

INTACT

More of your team's focus on clients and growth.

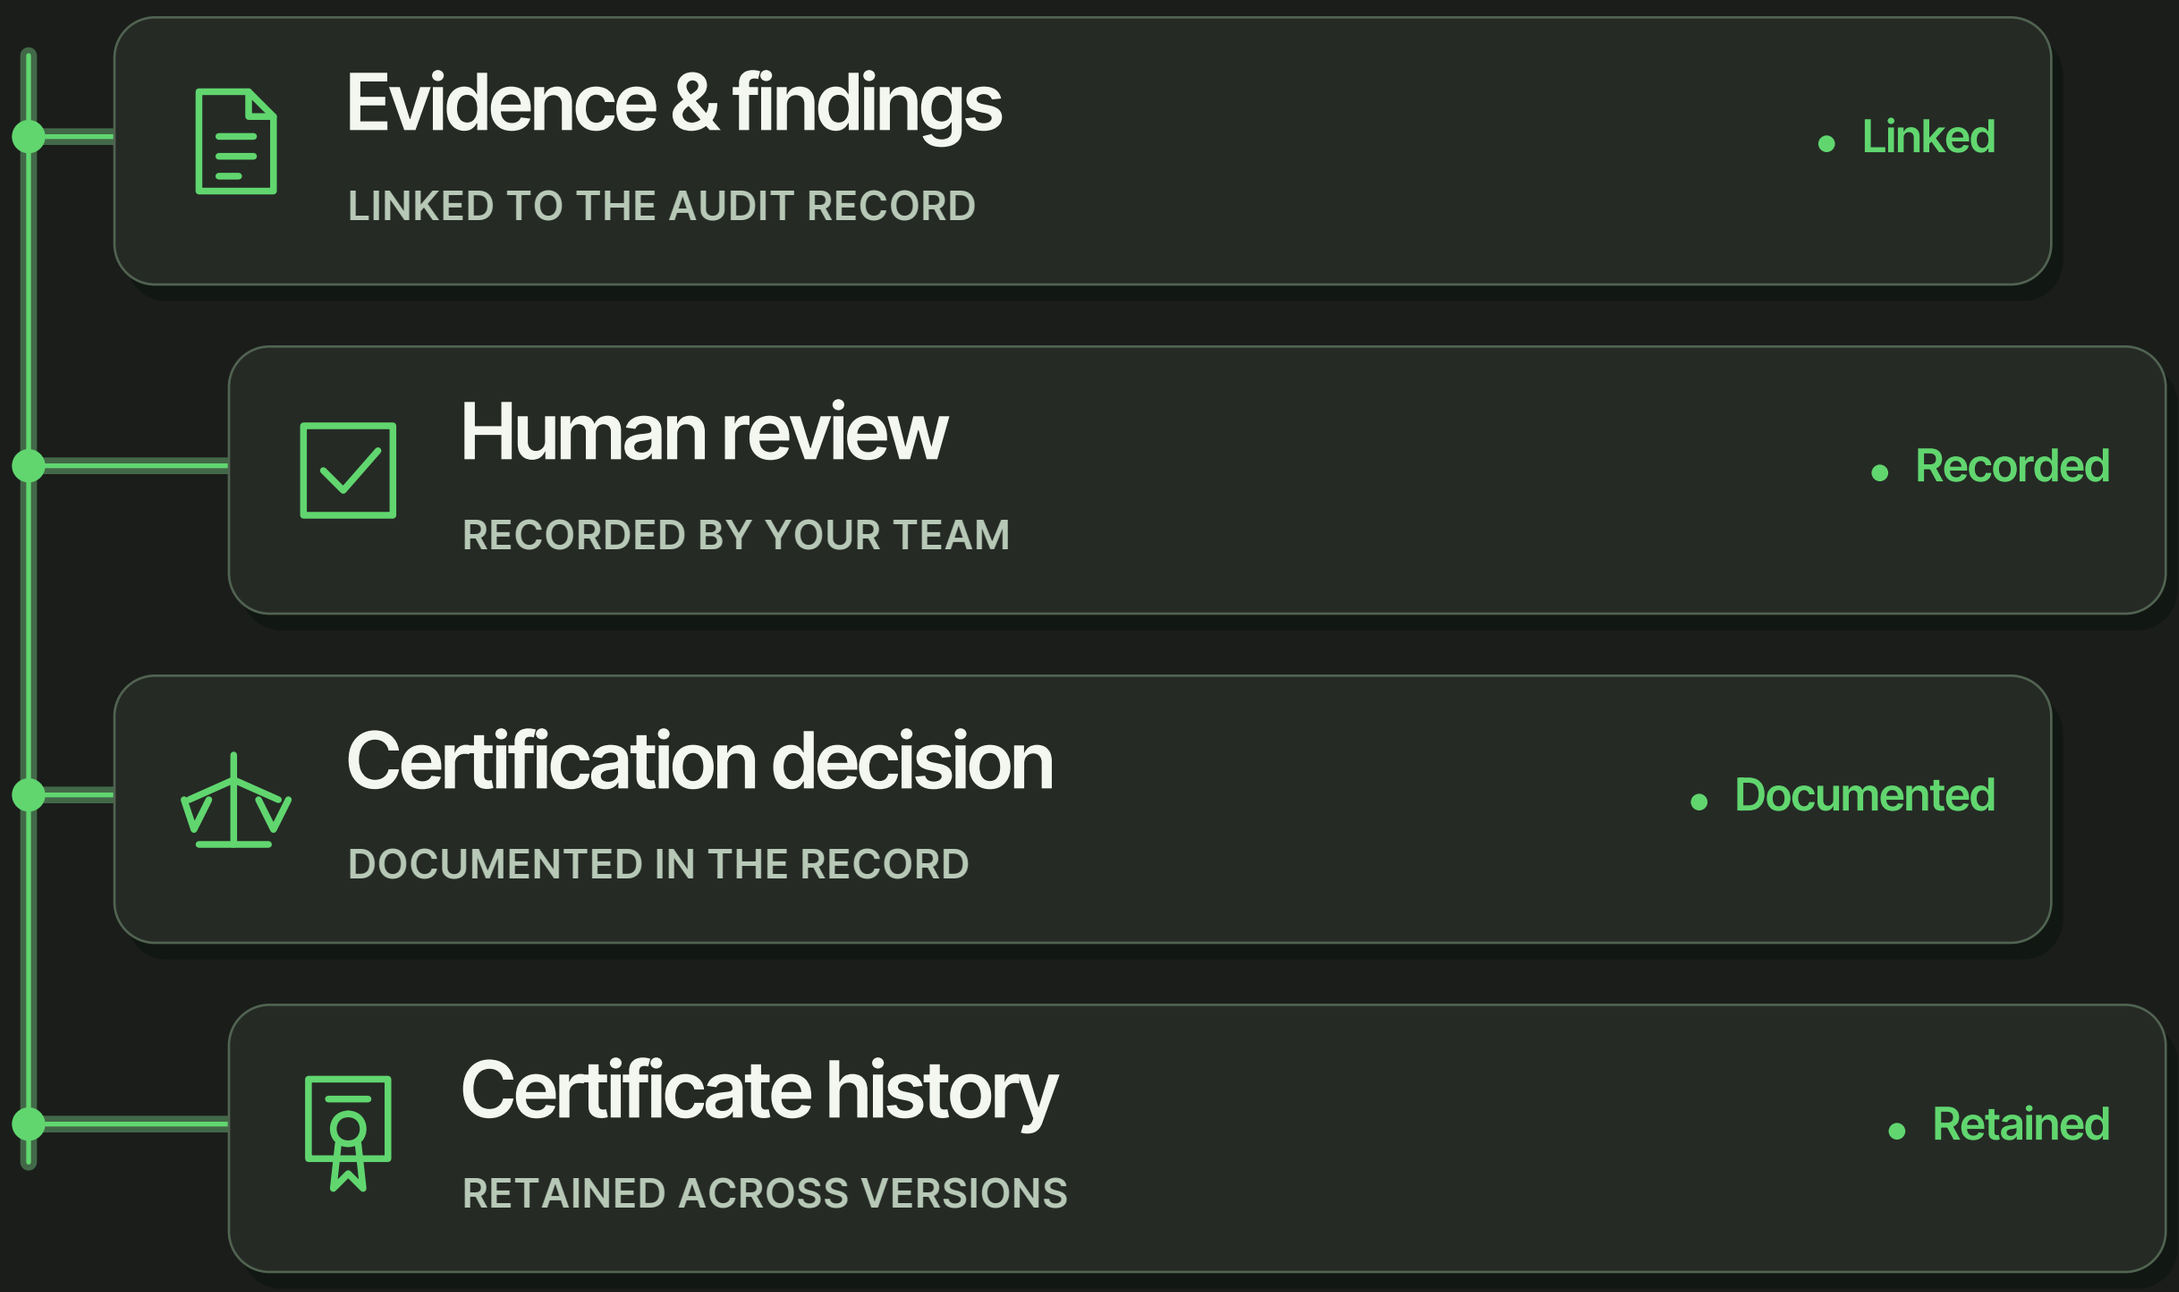

CONTROL WHERE IT COUNTS

Connected audits.

Your decisions.

Your data.

ILLUSTRATIVE WORKFLOW

One traceable history, from evidence to certificate.

BUILT AROUND YOUR INDUSTRY

Built for certification.

A platform shaped around the work you do.

100+

certification and inspection companies run on Intact.

96%

implementation success across live Intact rollouts.

20+

years focused on audit and certification.

Intact-reported figures / August 2026 whitepaper, p. 9.

YOUR NEXT STEP

Time is money. We help you save both.

Bring your current systems,
your team’s workload and growth plans.
